

IOD Luncheon Briefing 3/2016

A Discussion on Corporation's Preparedness for the Cybersecurity Threats in the Digital Transformation Era

1 December 2016, 11.30 – 16.00 hrs.

at Ballroom 1. Grand Hvatt Erawan Hotel

Overview

We live in an amazing time. Technology is changing our lives at breathtaking speed. The ability to connect to people and information instantly is so commonplace. And now, with cloud computing, we've arrived at the beginning of an era of even more profound transformation, often called the Fourth Industrial Revolution. A new generation of technology innovation is delivering new ways to expand economic opportunity. The Thai Government also plans to drive Thai economy by leveraging digital technology or Thailand 4.0. But new generation of technology also raises important questions about privacy, security, and much more. The number of cybersecurity threats, attacks and incidents has been dramatically increased in the past few years. The privacy breach and legal liabilities happening around the world should serve as a warning for Thai businesses. How we can handle privacy breach incident properly? What are the legal and reputation consequences and remedies? Find out more in our seminar.
