

IOD Director Briefing (Tea Talk) 1/2018

Dealing with Cyber Risk in the Boardroom

19 March 2018, 14.00 – 16.00 hrs.
at Ballroom, Renaissance Bangkok Ratchaprasong Hotel

Overview

Board of Directors today are under great pressure to ensure proper oversight of cyber risks in their organizations to navigate the treacherous digital landscape in light of increasingly frequent cyberattacks. The complexity of threats are evolving; perpetrators no longer fit a particular profile and the impacts of an incident are stacking up as stakeholders such as regulators, shareholders, customers and the public, start to hold the organizations accountable.

As boards prepare to take on a more active role in cybersecurity governance - what do you need to know?

To equip directors with the right knowledge, IOD has partnered with Deloitte to bring experts on cyber risk to help close the gap in security and cyber risk concepts.

This seminar will also provide guiding principles for overseeing cyber risks, achieving compliance with the growing number of regulations around privacy and risk, and preparing and handling of cyberattacks.
